

data trust

data trust

new legislation will enable Griffith University to become an accredited data trust & data custodian

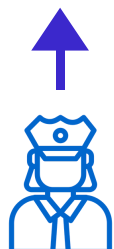

linked data will benefit:

- high impact interdisciplinary research & publications
- collaborations with industry, gov & not for profit sectors
- attraction & retention of talent
- supporting thriving communities

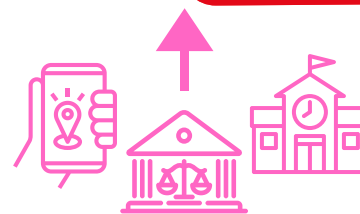

Qld Courts

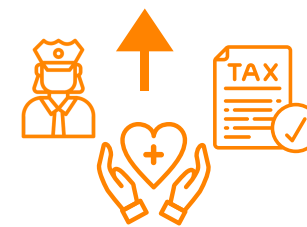

Qld Police
Corrective Services

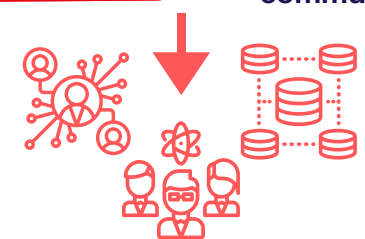

limited to specific criminology researchers & students

Education, AEDC, telecom, app data, Infoxchange, Community Service Organisations

QLD police, ATO, QLD metro health (South/North/GC), PHN's, DSS, ABS, financial institutions

growing number of interdisciplinary researchers across Griffith able to access linked data
